

R & L SPOT® Disposable X-Ray Markers for General Imaging

The Sanitary Alternative to Permanent Markers

Ensure anatomical orientation on all images is permanently identified as “Right” or “Left” with Beekley Medical’s disposable x-ray markers – the sanitary alternative to permanent markers.

When used over and over, permanent x-ray markers and the tapes used to secure them can harbor and spread opportunistic and pathogenic bacteria.

Single use, self-adhesive, disposable R & L disposable x-ray markers are the perfect solution for communicating anatomical orientation when imaging all patients.

R & L disposable x-ray markers are ideal for use on:

- Immune-Suppressed or Compromised Patients
- Neonatal / Newborn Imaging
- Trauma Cases
- Isolation Wards
- Burn Units
- Portable Units

L-SPOT®

REF 112 QTY 64 / Box

- lead-free radiopaque L for documenting left side on image

R-SPOT®

REF 113 QTY 64 / Box

- lead-free radiopaque R for documenting right side on image

Start using R & L SPOT® disposable x-ray markers as a part of your infection control protocols.
